The background of the cover is a detailed illustration of a school building. The upper portion shows a large, vaulted roof with a grid of tiles. Below the roof, a balcony or walkway is visible, featuring a railing and a large bell hanging from a post on the left. The year '1954' is prominently displayed on the wall of this balcony. To the right, a set of stairs leads up. The overall style is a black and white line drawing with some grey shading on the roof and walls.

The Cotton Blossom

1954

Foreword

"Ahoy! With a jeweled rapture
A pirate's loot we capture!"

Yes, we are pirates . . . in our own way. We have captured our cherished treasures--knowledge, life-long friends, and memories--from Temple High School and buried them deep in our hearts. Those treasures outshine gold and silver . . .

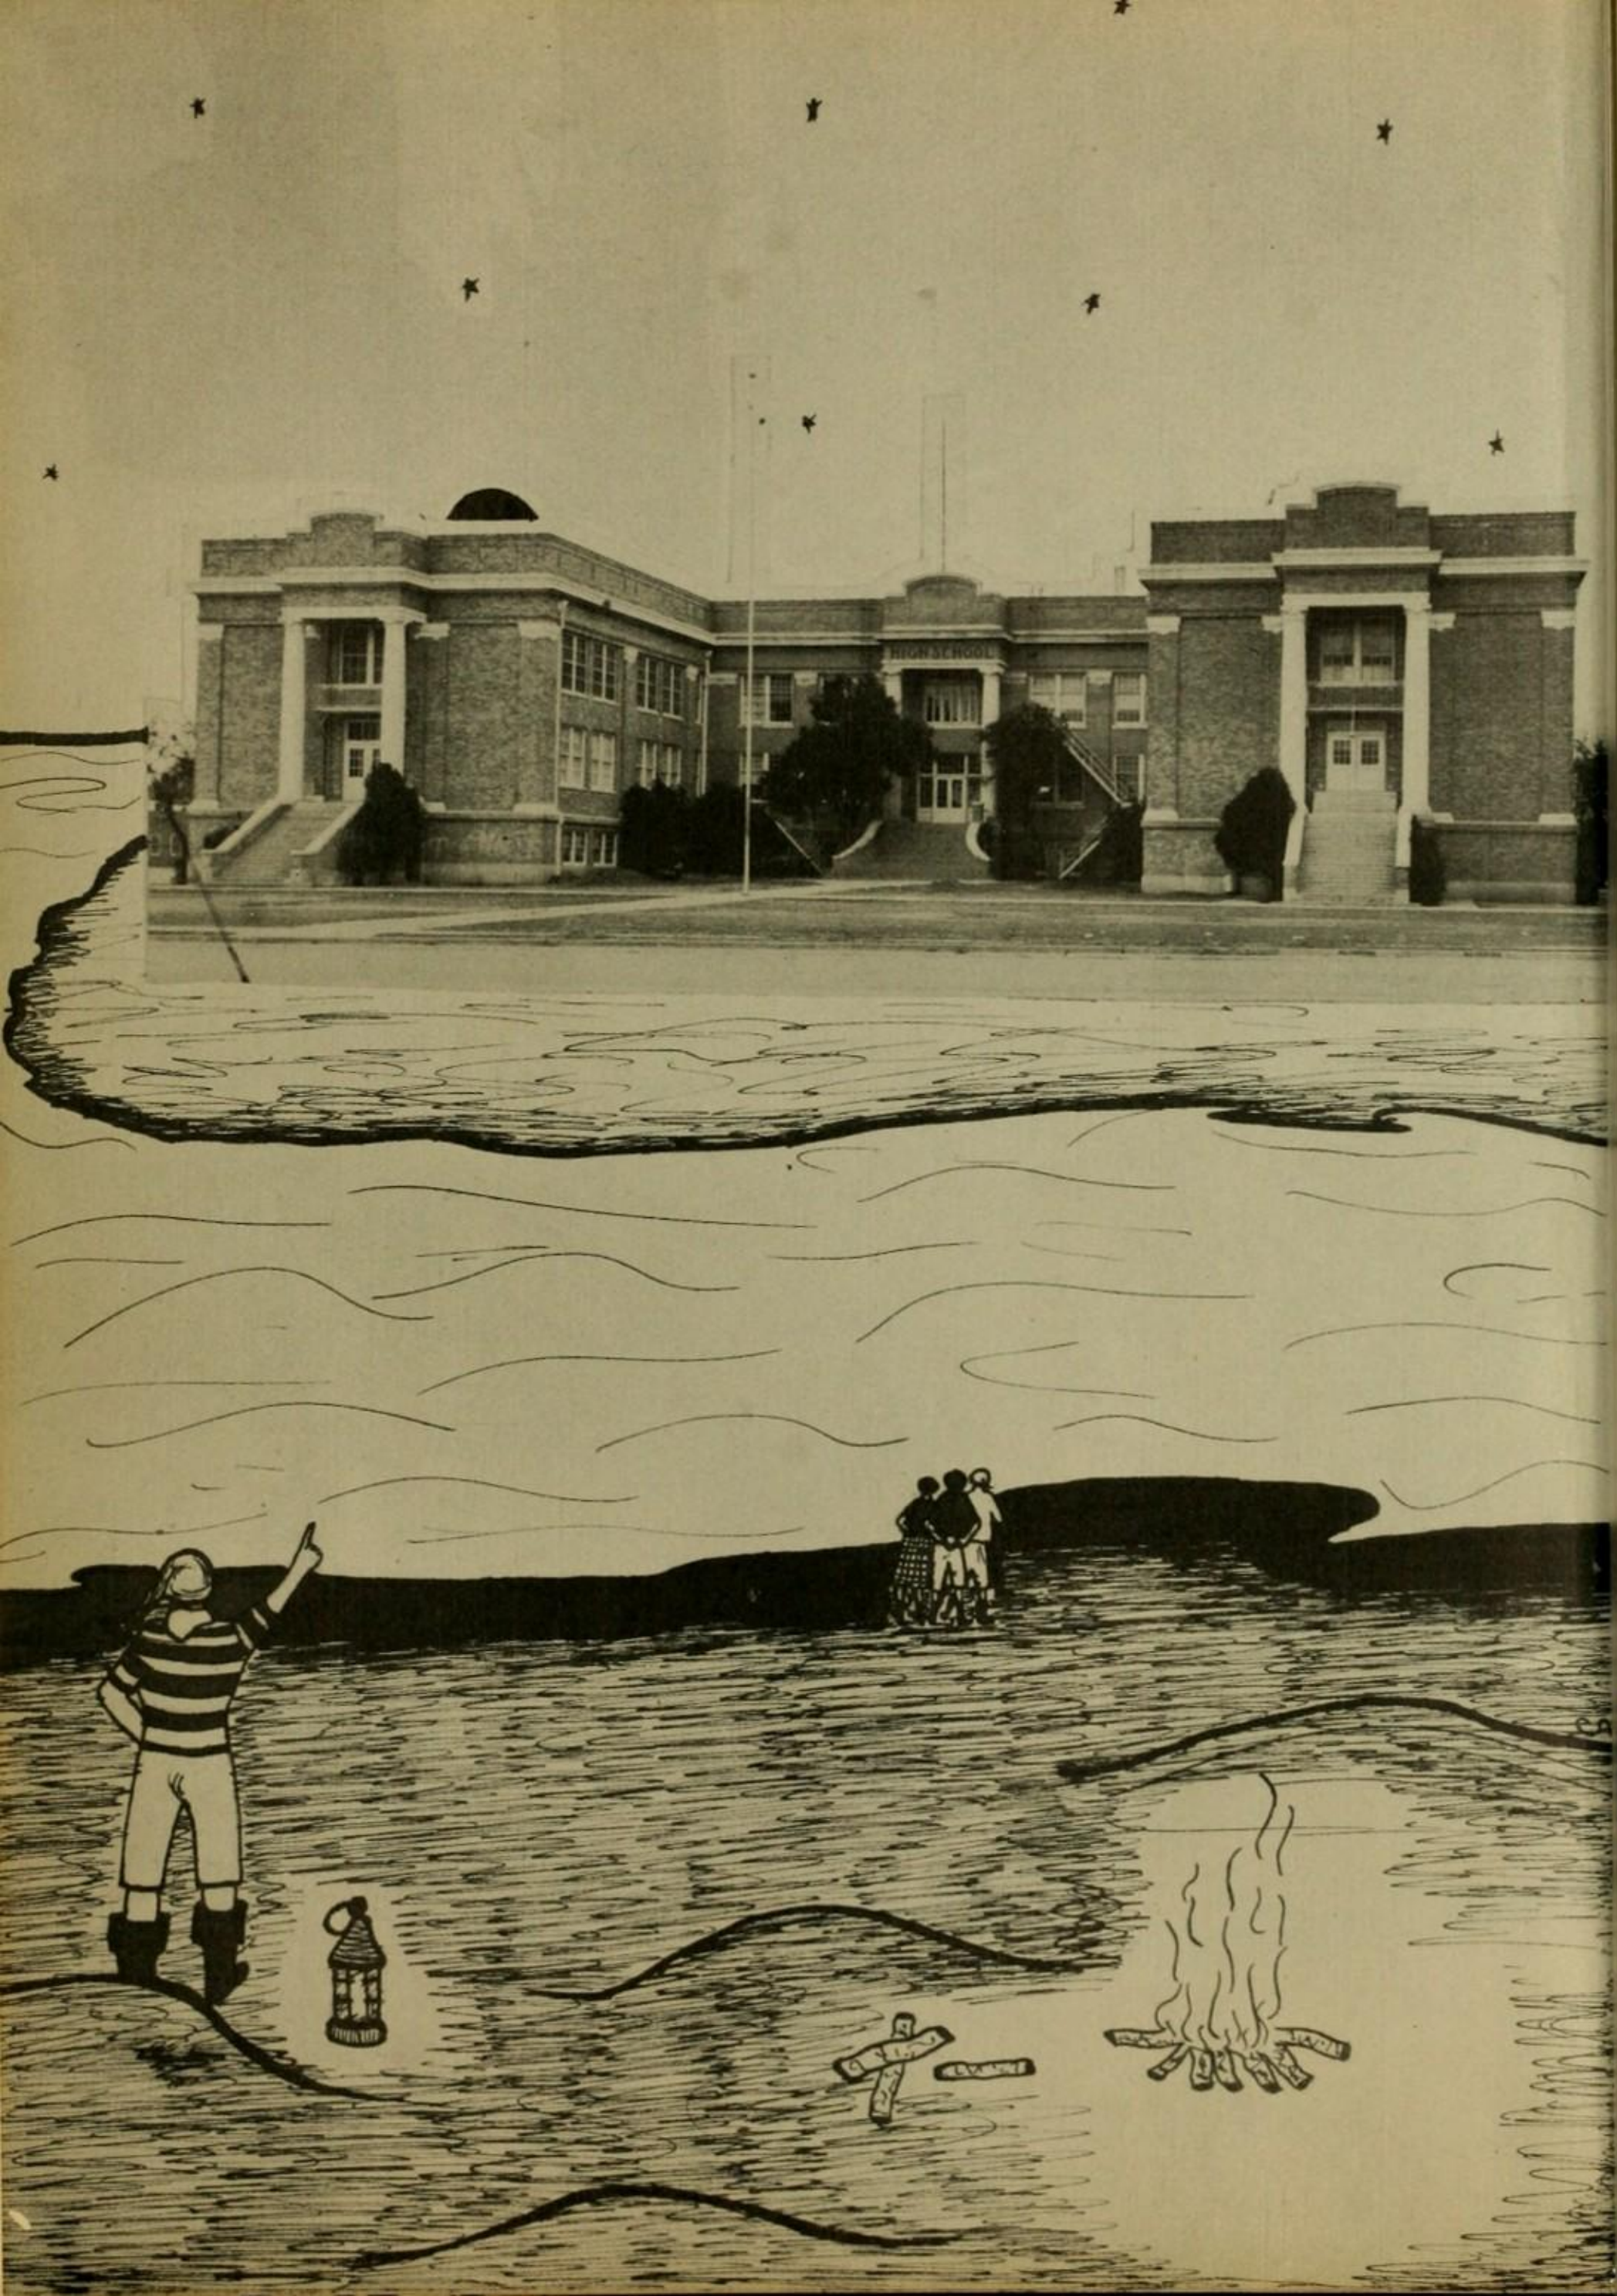

We have attempted to capture the wonderful adventures of our youth and to store them in a big chest--THE COTTON BLOSSOM. In later life may you find pleasure from this treasure of memories.

Dedication

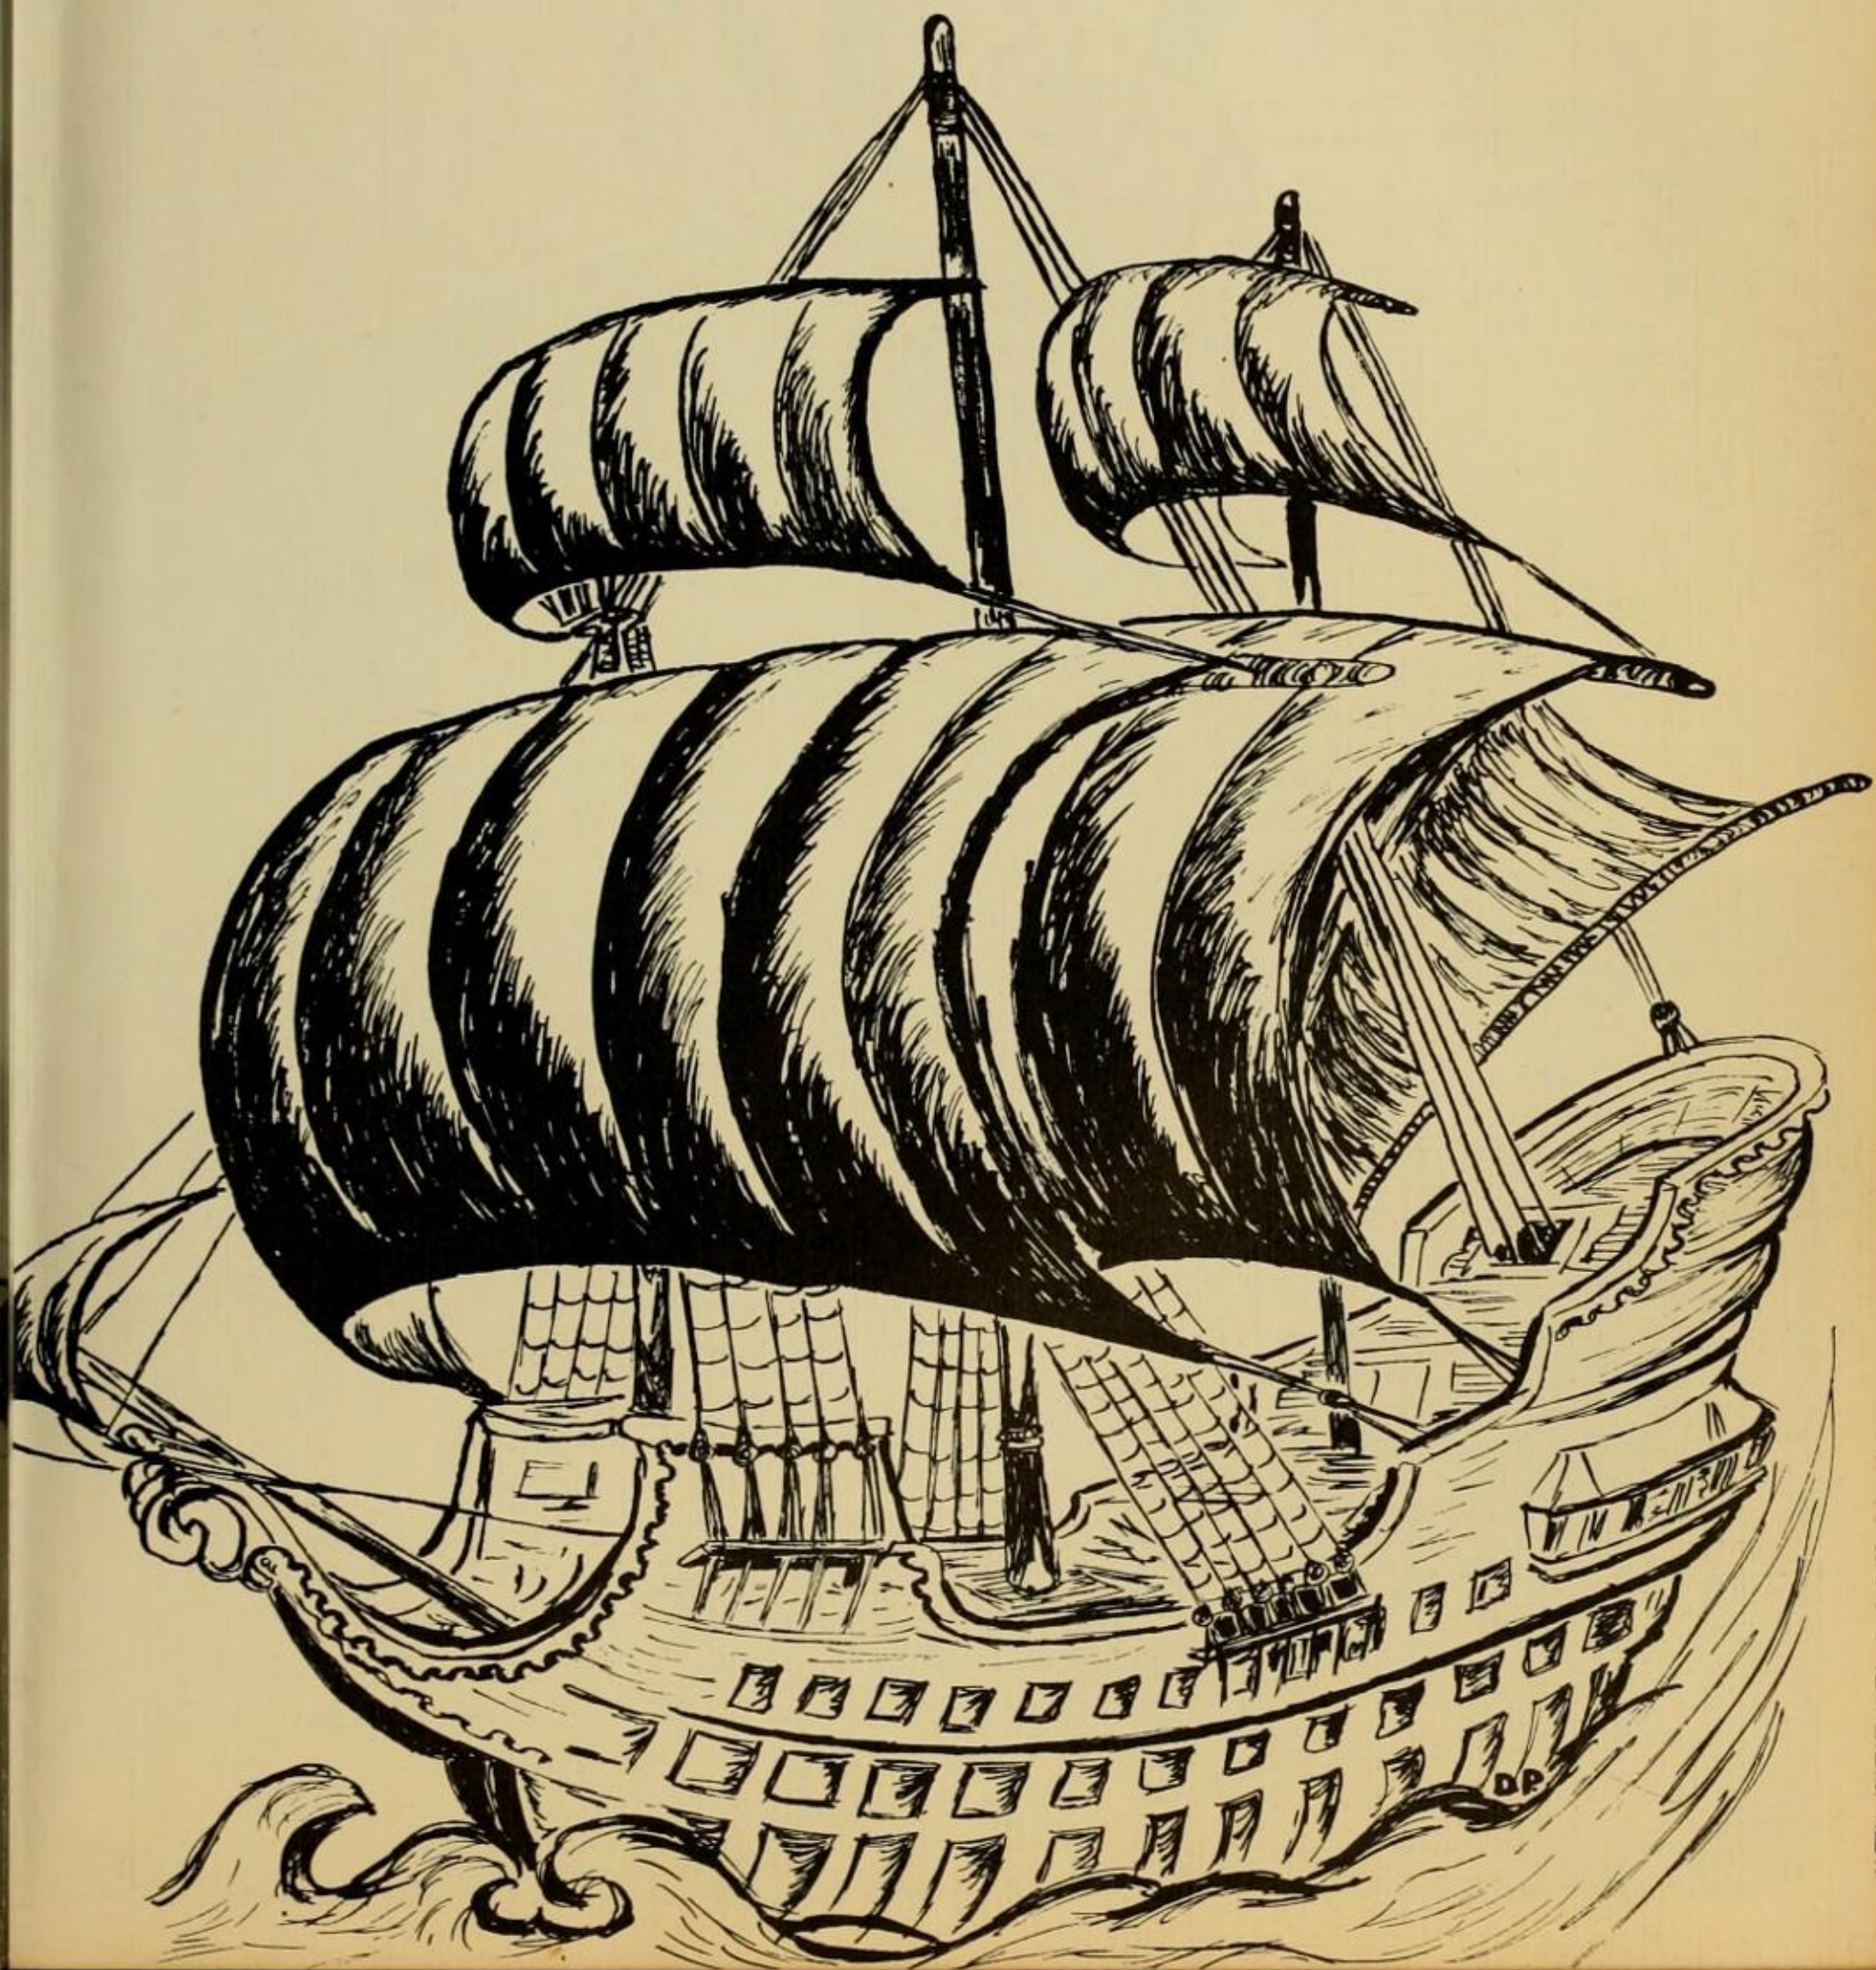

We the Senior Class of 1954, dedicate this Cotton Blossom to an outstanding person who knows the ambitions of the Temple High School students because he, too, has been one; who, with an understanding heart and a wonderful sense of humor, works untiringly for the success of our school; who gives his best as he has instructed us to do.

TEMPLE JUNIOR COLLEGE

For the high school graduate the choosing of a college in which to continue his education is always an important matter for consideration. First of all, he wants to know that it is an acceptable, approved, and well-known college. Then it must offer the courses which fall within the field of work he wishes to pursue. There should be sufficient college activity to afford him a well-rounded social life. Consider how TEMPLE JUNIOR COLLEGE meets the graduates' requirements.

1. What is the academic status of TEMPLE JUNIOR COLLEGE?

Temple Junior College is approved by the Texas Education Agency and the Association of the Texas Colleges as a first-class junior college. It is an active member of the Texas Junior College Association and the American Association of Junior Colleges.

2. What Fields of study are available?

Preparatory courses in the fields of medicine, law, business, nursing, engineering, teaching and general education are available.

3. What college activities are accessible?

From the social point of view there are the Freshman and Sophomore receptions, club parties, college dances, class entertainments and Luncheon Club dinner dances. For general club activities there are the Pan-American Club, Business Club, Social Science Club, Dramatic Club, Delta Psi Omega, Do-Si-Do, College Council and others.

4. What activities are available that will enable me to obtain practical experience in my college work?

The "Leopard Tales," college paper, and the "Templar," college annual afford excellent opportunities in the field of journalism. The Junior College Radio Series offers opportunities in radio writing, production and presentation.

5. What are the qualifications of the faculty?

Scholarly and experienced faculty members are prepared to give constructive guidance and instructional service.

ELECTRICITY
DOES SO MUCH
FOR SO LITTLE!

"If yours is a typical home you have let me help with more jobs than ever before... such jobs as cooking your food, running your washing machine, food freezer, blankets, sewing machine and many, many others. Your electric bill is no longer a light bill, but an electric service bill and today the average cost of TP&L electric service is even lower than before World War II, although prices of most other services and commodities are up from 50 to 100 per cent. Where else can you find so economical a servant, that does so much to make living more enjoyable, for so little money?"
